There is no weather or safety committee, and the decision to fish is left solely to Captains who do so at their own risk. Traveling out on the ocean in seas with conditions which are subject to constant change and engaging in a fishing tournament which requires movement and exposure to these conditions, is an inherently dangerous activity that could result in severe injury and/or death. All participants knowingly and willingly accept these risks. Participants represent that they are in good health, sufficient to withstand the rigorous nature of this activity and are knowledgeable about safe fishing practices and boating safety. Participants hold harmless Hampton Marine Inc DBA Hampton Watercraft & Marine and individual boat owners in the result of injury and/or death.

I UNDERSTAND THAT THERE IS ALWAYS A WAITLIST FOR THIS EVENT. IF FOR ANY REASON I CAN NOT ATTEND THE TOURNAMENT I WILL NOTIFY HAMPTON WATERCRAFT & MARINE IMMEDIATELY SO THEY CAN FILL MY SPOT WITH SOMEONE ON THE WAITLIST.
